INDUSTRIAL LUMINAIRES

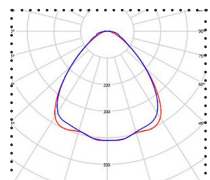

Multi-purpose linear luminaire for supermarkets, halls, production facilities, warehouses or logistics facilities.

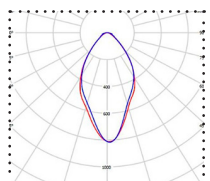

Luminaire body with or without end caps. Without end caps (TEKR version) for sliding end bracket to installation between luminaire rails or to produce lighting lines.

Methods of mounting the end caps luminaires: on the ceiling surface, on the suspension rail, on the cable and on the threaded rod.

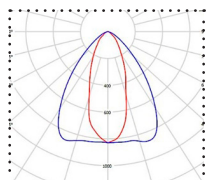

BEAMS

A

B

C

Connected load: 43 - 140 W

Luminous flux: 7000 - 20000 lm

Colour temperature: 4000 K

Lifetime L80B20 (Ta 25 °C): >100 000 hours

Weight: 5 - 8 kg

Ambient temperature: -20C - +40 °C

Body colour: White

Material: Steel

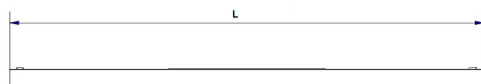

INSTALLATION

- To the bottom of the suspension rail
- Ramp installation between suspension rails
- Between ladder shelves
- On the ceiling
- Hanging with threaded rod
- Hanging on a wire
- Busbar installation
- Forming the light rail
- Wall mounting (adjustable)

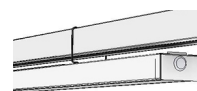

OPTIONS (check availability)

- Black body
- Luminous flux optimizations
- Deviating mounting brackets
- 3000K
- Mounting to tracks
- With connecting cable
- MEKA spring clamp pair

TEKNO

50W and 70W L=1200
100W and 140W L=2400
